VINAFLEX NOISE BARRIER

Vinaflex Rolls with Foil Facing (FF)

Vinaflex Noise Barrier (FF)

Great Lakes Textiles Vinaflex (FF) Noise Barrier is a flexible, mass loaded vinyl barrier faced with a scrim reinforced aluminum foil on one side. Vinaflex (FF) is used for wrapping noisy pipes, ducts and valves in a wide variety of applications.

Vinaflex (FF) may be combined with a quilted fiberglass decoupler to improve acoustical performance, thermal conductivity and lower installation costs. The durable reinforced foil facing serves as a protective jacket and readily accepts matching lag tape.

Vinaflex (FF) Noise Barrier is offered in the following sizes:

Standard Roll Size by Density

FF-050	1/2 lb./sq.ft.	48" x 50'
FF-100	1 lb./sq.ft.	48" x 50'
