

# SURVIVAIR® P APR

## (POWERED AIR PURIFYING RESPIRATOR)

Belt Mounted

Mask Mounted

- Available as mask mounted or belt mounted units for program flexibility, with a low cost High Efficiency (HE) filter that consolidates inventory and reduces inventory costs.
- Features field replaceable power cords, blowers, and batteries to reduce down time and inventory costs.
- The battery pack is water resistant, and contoured for wearer comfort, with an automatic resetting circuit protector requiring no fuses, which protects against battery short circuits.
- All Survivair P APR units meet ANSI/UL 913 standard for intrinsically safe apparatus for use in Class1, Division 1, Group A, B, C, and D hazardous locations.
- It's facepieces and hood are easily convertible to Air Purifying and/or Continuous Flow Supplied Air Respirators.
